# A Performance thrill you'll never forget

ARE you tired of "sluggish cars? Do you want the thrill of flashing brilliant performance, to be able to step out and

around other cars on the road? Then this is the car for you It is built for young people who are going

They have discovered it in thousands It is "modern" not made over Ne mean just what we imply

The Overland Six is new all thru bril liantly engineered as a unit

That's why you can run this new type car at high speed hour after hour

Many cars have been "modern too long Buyers of such "new" cars are due for a "shock" when they look for resale value

It was designed for road speeds of from 45 to 55 miles per hour without wear and tear on the motor

It will pickup in high gear from 5 to 40

It has ample power to climb sceep hills in nigh gear shifting reduced so a minimum

It has a modern full pressure-feed oil

ing system That's one Overland Six will run longer

than other cars, without a nile of renait Modern engineering has made possible a lower gravity center. The Overland Six fairly huge the ground. Without sides way, slipping or wandering it is surprisingly safe and easy to control.

In performance this remarkable new type

gar is holliage. The only was to appreciate it is to actually fine only way to appreciate it is to actually drive the car. Sit behind the wheel and experience yourself the wonderful thrill of its tremendous power, its lightning pickup and amazing bursts of speed.

In fairness to yourself, see this car Note 4 wheel brakes are now furnished as optional equipment at slight extra cost

### DO YOUR SEASON'S CANNING THE LORAIN WAY It Is Easier, Better, Cheaper

Ask for a demonstration of the Lorent Equipped Dangler Gas Range

With a Lorain Equipped Dangled Range in your kitchen your work will be reduced to half the time ordinarily required. You can cook whole meals in the oven at one time—unwatched. You will experience no unlucky baking days for everything will be perfect every time. And hest of all you can do your canning right in the oven. No more standing over a hot stove for hourd watching the fruit and vegetables. You simply place the fruit in the jars, seal them lightly, place them in the oven and at the end of a given length of time remove the jars from the oven, seal, and your conning is completed. Simple - easy - more satisfactory. You will find that fruit and vegetables canned in this way will retain their firmness and fresh from the garden flavor longer than when canned in the old

#### On Full Time Again.

It was pleasing to learn resterday that the Eusquehanna Silk mills had resumed their full time schedule and would be operated henceforth fifty hours a week

The part time schedule upon which the miss were working was insugurated early in the month of May at which time the night for a as discontinued the cuiting down of output being due to temporary overproduction. This overproduction no longer obtains and as a result the night force was reinstated June 26 the day force is again on a full time èchedule.

We have ever looked upon the coming of the Silk mills as an industrial blessing to Ma rien lep to the lime of their advent here our industries lacked diversification What we had was very largely along one linoinachinory—requiring chical one general lin of labor. The Silk mills offered something of an innovation giving employment to an en establishment here other industries have come in until our industrial field is not of so much meas It is now more diversified possible rot so much as it should but still far more than it was

## Jeremiah's Farewell (Cleveland Plain Dealer)

(Cleveland Plain Dealer)

leremiah Smith is a good solid Vankee asmand Mr Smith seems to possess good solid Vankee traits. When Count Bethlen promier of Hungary proposed to present him with a decoration in recognization of his two years service as financial udministrator of the kingdom Smith replied. If you do I II never forgite you. As representative of the League of Nations at Budapest Jeremiah Smith earnet \$100,000 in salary a sid when this was tendered to him by the premier he handed back the check with instructions that it be used for bettering the condition of the Hungarier poorer classes. Give it to charity said Jeremiah vour pour need it more than I do

poorer classes. Give it to charic same premish your poor need it more than I do.

Mr Smith has not only declined to accept he calary but has also refused any compensation for living expenses during his two years so fourned Rudopest in the strictst sense of the word this gentleman from Boston has been a volunteer. And it is said that ferential Smith is not a rich man.

The work which Smith has accomply hed for the league of Nations is highly important Dr Timmerman a Dutchman rehabilitated tustra for the League of Nations and smith the American has performed a like service for Hungary. Smith found Hungary in seemingly opeless financial confusion and di tress and after two years of lahor make the kingdom luce into a reasonably stable state.

As for Jeremish Smith be will always be remembered in Hungary. Streets will be named for him and he may even have a monument in his own country his name is not widely nown but it deserves to be He has discredited those who advertise the Americans as a nation of self-seekers and a race careles of the welfare of the rest of the world.
